

## **Adina Hanáková**

I am a third-year student of a bachelor programme at DAMU's Department of Arts Management, so it is probably no surprise that I spend a lot of time in theatre. I work with several theatre troupes and in my spare time I read, sew, play sports, draw, hike in the mountains, listen to music, do things together with my family and friends, and so on. In addition, I am a random quote generator and love to share quotes at any time.

Ever since the first year, my schoolmates and I have been trying to connect AMU's Faculties and Departments and point out any obstacles we encounter while studying, and we have always tried to push through little changes to make DAMU a better place. This is why I decided, together with my colleagues and friends Jakub Philipp and Josef Tajovský, to run for AS AMU where I would like to defend our Faculty's interests and offer the entire school my suggestions, ideas, energy and determination.

I am aware of the importance of the Academic Senate and if I was a member of the students' chamber, I would always try to speak primarily for those who are an integral part of AMU as a whole and spend more time at their Faculties than at home. I would also try to inform students better about the activities of the Academic Senate.

My election programme is based on the priorities of the coalition that I formed together with Jakub Philipp and Josef Tajovský. In our declaration, we present Five Programme Priorities: interconnecting the Faculties, room for communication, supporting technologies, overcoming the crisis and flawless presentation. Our full election programme and all details are available on our Facebook site [here](#) and in the Instagram account [@spolamu](#).

That's because we are #TogetheratAMU #spolamu and #Wearehumans.
