

Kristina Kůlová

I am a second-year student of FAMU's Department of Cinematography. Prior to FAMU, I took several semesters in political science at the Faculty of Arts.

I run for the Academic Senate of AMU because I believe that it is important to unite all three Faculties as much as possible and to encourage dialogue between students as well as between teachers and other AMU employees. As a student of the Film and TV School, I take this opportunity for expanding my horizons when it comes to the inner workings of AMU as a whole.
