

Michal Sikora

I am a second-year student of Acting at the Department of Alternative and Puppet Theatre.

I decided to run for AS AMU because I care for constructive communication between students, Departments and Faculties. Such communication is important because many of us worry about something that remains unsaid, which leads to growing frustration rather than to a solution.

The current period requires an entirely different or new attitude from students and teachers alike. Distance learning involves dire separation from our alma mater, which strongly affects the artistic development of students in all years of study. It is crucial to seek efficient solutions so that whatever can be given to us, is given in the greatest possible quantity.

I want to open discussions, connect students across Departments and Faculties, seek shared topics and offer solutions.
